Role description:

Boss: The owner or shareholder of the farm.

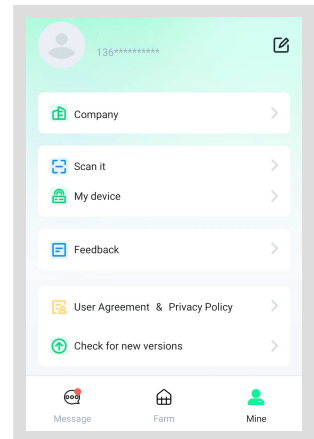

Technicians: Includes the farm director, management staff, feed statisticians, logistics, financial, and production personnel.

General personnel: Encompasses workers, guards, and other support staff.

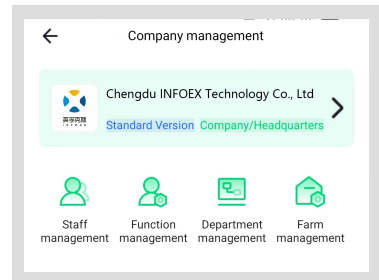

2 Establishment of Breeding Farms

2.1 When logging into the app for the first time, users will see the 'Create/Join Breeding' option on the Farm page.

Click the “Create Farm” button to proceed.

2.2 Select the type of farm and click the "Next" button.

2.3 Fill in the Farm Information as Required

Enter the required basic information, including details about the pig houses and other facilities.

Note that information about the feed silos cannot be added at this time. After filling out the necessary fields, click the "Submit" button to complete the creation of the farm.

The screenshot shows a mobile application interface for creating a farm. The title is "Create farm" with a back arrow on the left. The form contains the following fields:

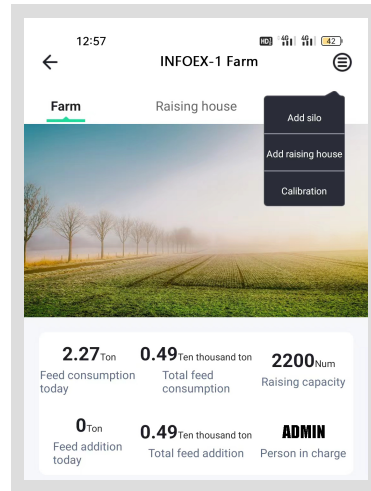

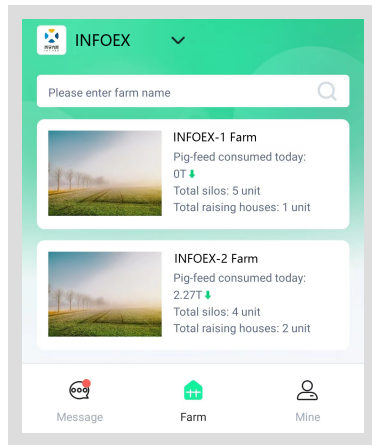

- Farm name***: A text input field with the placeholder "Please input".
- Farm type***: A dropdown menu with the placeholder "Please select" and a downward arrow.
- Raising capacity***: A text input field with the placeholder "Please input".
- Farm location: Province/State**: A dropdown menu with the placeholder "Please select" and a downward arrow.
- Detailed address**: A text input field with the placeholder "Please enter".
- Person in charge***: A dropdown menu with the placeholder "Please select" and a downward arrow.
- Photos of the farm**: A button labeled "upload".

At the bottom of the form is a large green button labeled "Confirm".

3 Device Binding and Viewing

3.1 No feed silo was added at farm creation.

(1) Go to the home page, scroll to the "Farm List" section, and select the farm you just created.

(2) Navigate to the "Silo Information" section on the farm's detail page and click the "Add Silo" button.

(3) Navigate to the feed silo page, enter the required information, and if applicable, click “Associated Device”. Then activate your mobile camera, scan the QR code corresponding to the number, and press “Submit” to complete the addition and association of the silo with the device.

The screenshot shows a mobile application interface for adding a silo. At the top, there is a back arrow and the title "Add silo". Below the title, there are several input fields:

- Silo type:** A dropdown menu currently showing "Common silo" with a right-pointing chevron.
- Silo name*:** A text input field with the placeholder "Please input".
- Silo capacity(T)*:** A text input field with the placeholder "Please input".
- Silo material*:** A dropdown menu with the placeholder "Please select" and a right-pointing chevron.
- Number of silo stand bars*:** A dropdown menu with the placeholder "Please select" and a right-pointing chevron.

Below these fields is a section titled "Set up where to send feed" with a warning message: "Raising house silos need to be set up with associated raising houses, so to confirm where to send the feed. If the raising houses are not yet created, this can be left blank temporarily." This section contains two more input fields:

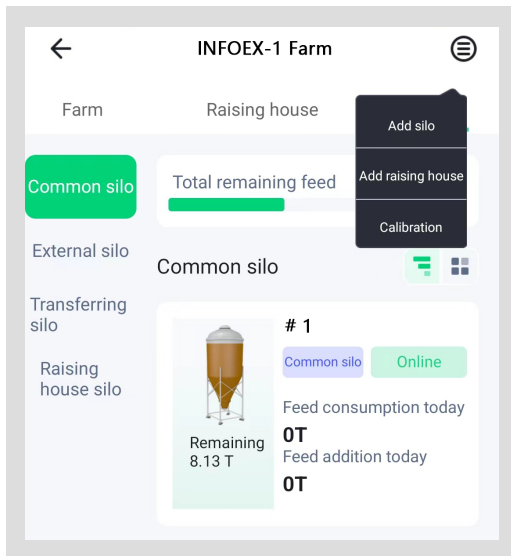

- Associated raising houses:** A dropdown menu showing "Raising house".
- Select raising house:** A dropdown menu with the placeholder "Please select" and a right-pointing chevron.

At the bottom of the form is a large green button labeled "Save".

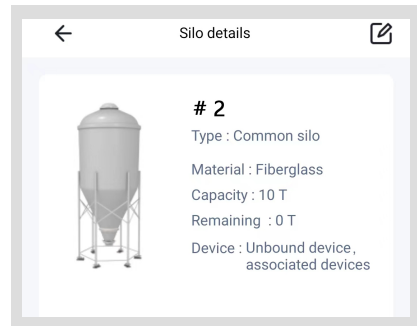

(4) After adding the silo and device, click on “More Letters Information” to access detailed information about the device.

3.2 The feed silo was added at farm creation.

(1) After entering the farm's detail page, scroll to the "Feed Silo Information" section and click on the image of the silo.

(2) On the silo details page, scroll to the "Device Information" section, click the "Add" button, then use your mobile phone camera to scan the QR code on the device linked to the corresponding silo to complete the binding process between the silo and the device.

(3) After adding the device, click on “More Information” to access detailed information about the device.

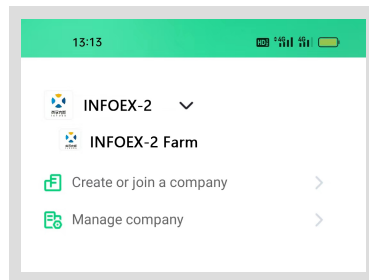

4 Management of Farm Members

4.1 Farm Members joining Enterprise

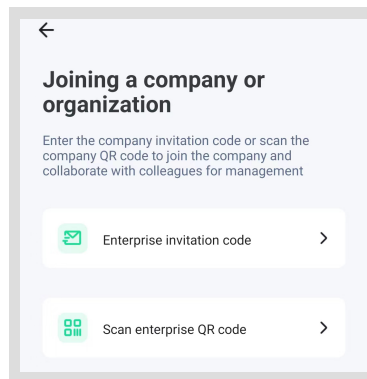

(1) After successfully registering farm members, on the farm page, click on Create or Join Enterprise.
